

Think you know what's below? *Think again.*

Call or click before you dig.

Make sure underground utilities are marked to prevent damage, service interruption and injuries.

April is National Safe Digging Month—a great time to remind coworkers and employees to call or click before you dig. Remember, excavators and contractors working in New York City and Long Island are legally required to contact DigNet by phone, **1-800-272-4480** or **811**, or online at least 48 hours before starting any mechanized digging.

If working outside the five boroughs or Long Island, contact Dig Safely New York.

Call or visit DigNet online to schedule a free safety presentation!
