

Think you know what's  
below? *Think again.*

## Call or click before you dig.

Make sure underground utilities  
are marked to prevent damage,  
service interruption and injuries.

Did you know that 35% of all excavation damage in the U.S. is caused by people not calling before they dig? By law, excavators and contractors working in New York City and Long Island are required to contact DigNet by phone, **1-800-272-4480** or **811**, or online at least 48 hours before starting any mechanized digging.

If working outside the five boroughs  
or Long Island, contact Dig Safely  
New York.

*Call or visit DigNet online to  
schedule a free safety presentation!*
